

BALLET

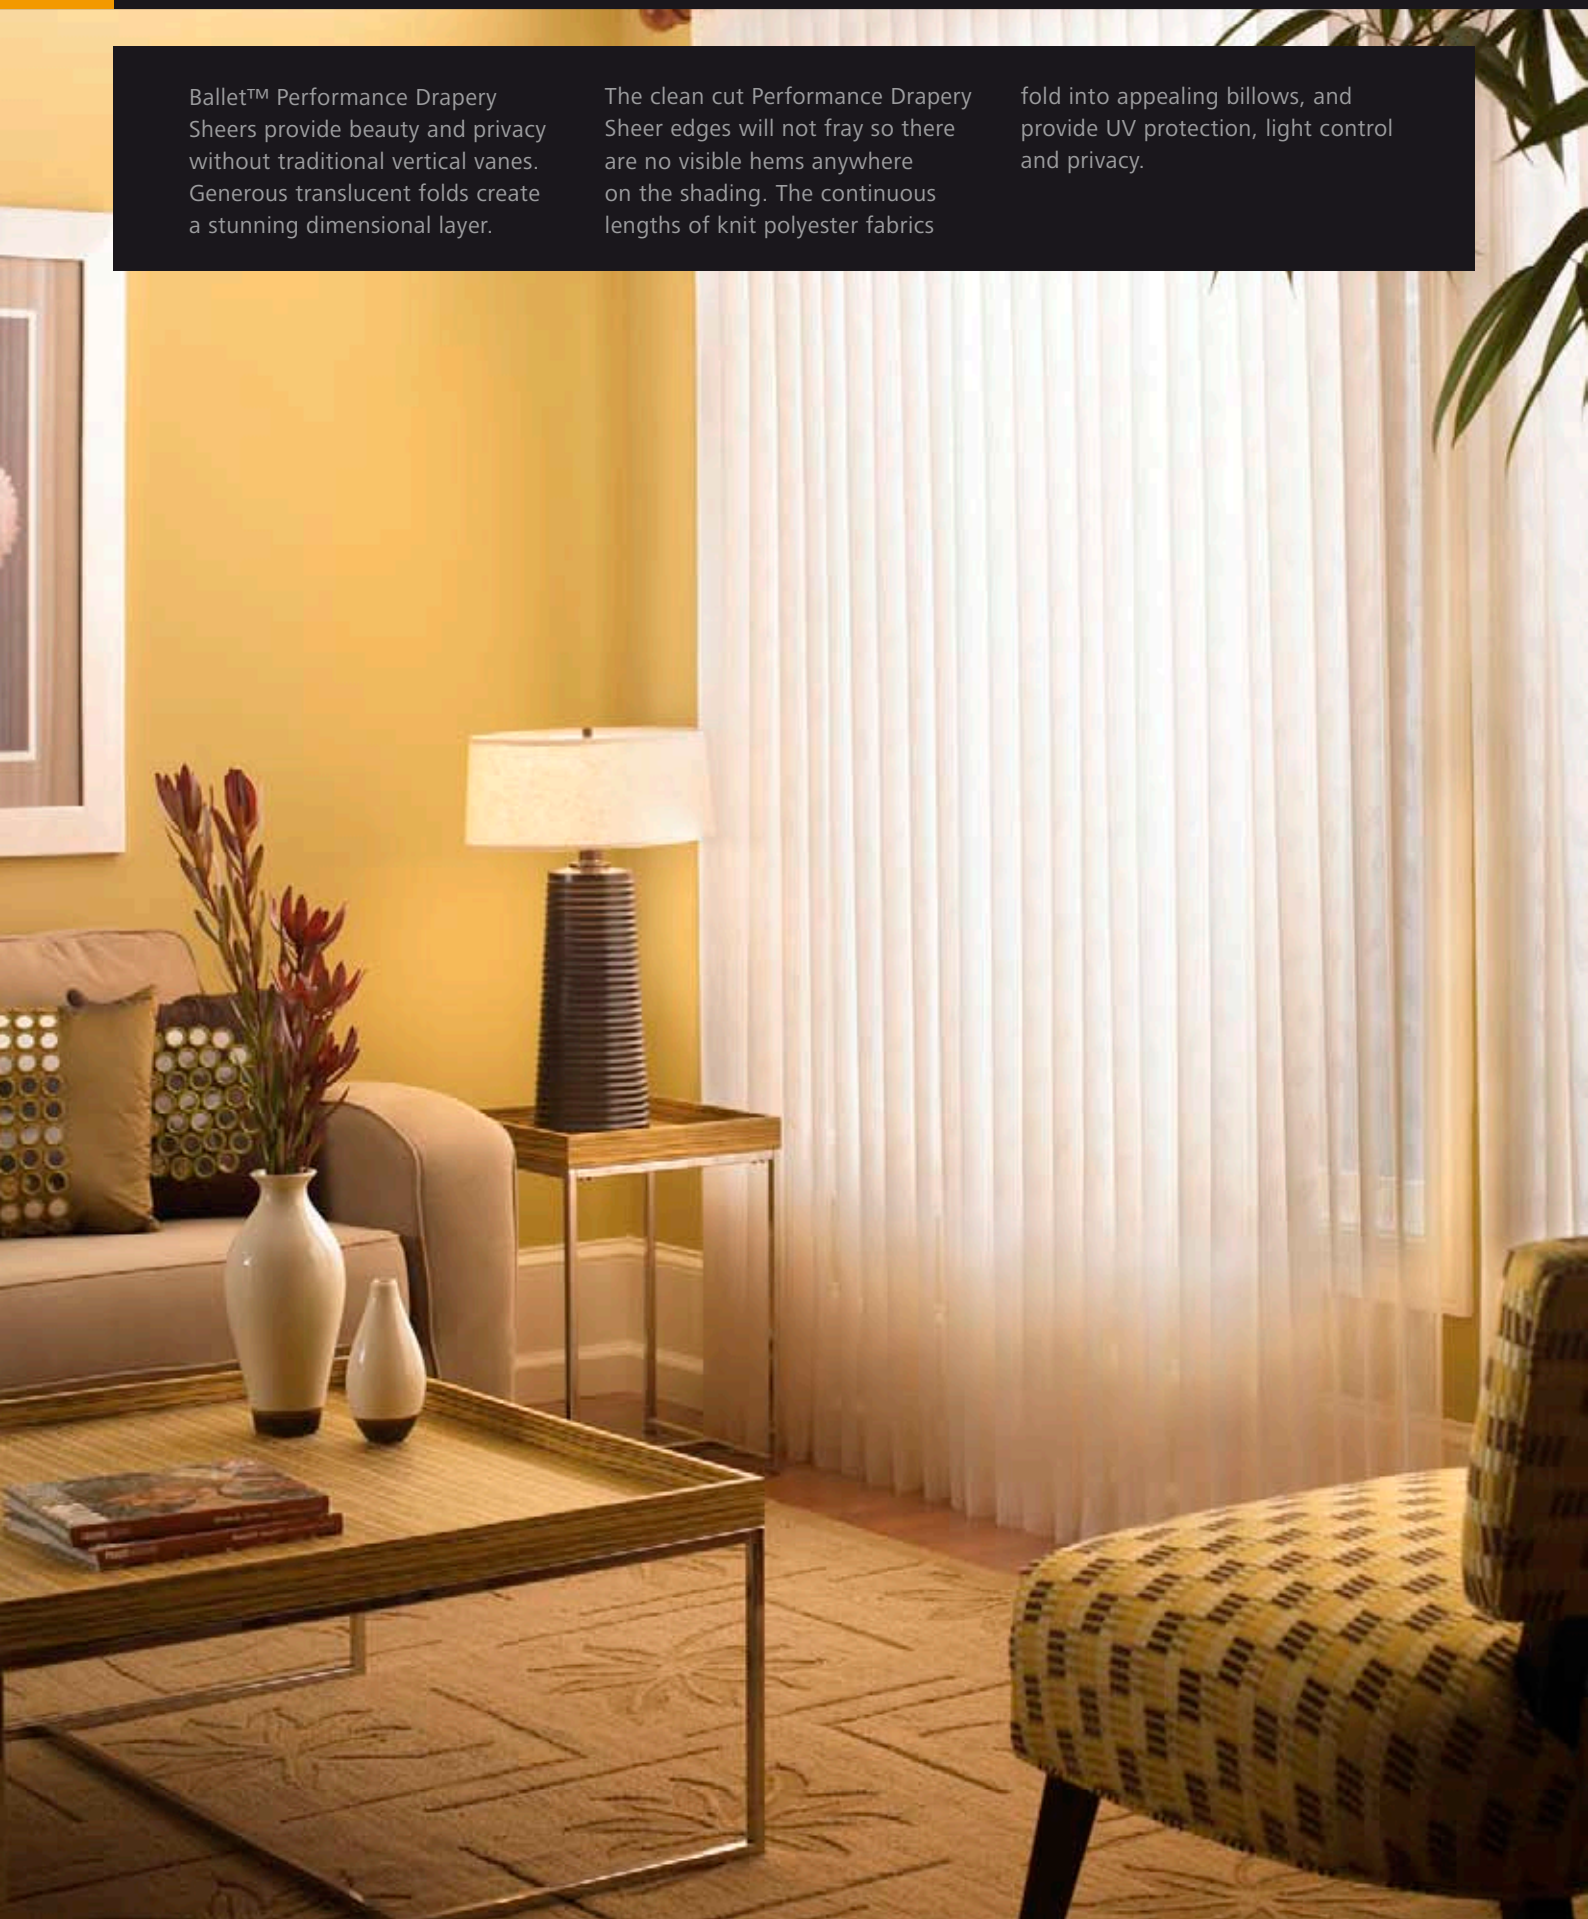

PERFORMANCE DRAPERY SHEER

by  TURNILS®

Ballet™ Performance Drapery Sheers provide beauty and privacy without traditional vertical vanes. Generous translucent folds create a stunning dimensional layer.

The clean cut Performance Drapery Sheer edges will not fray so there are no visible hems anywhere on the shading. The continuous lengths of knit polyester fabrics

fold into appealing billows, and provide UV protection, light control and privacy.

Fabric

The soft flowing fabric folds into appealing billows without the necessity of vertical vanes. Each fabric panel has a full range of rotation that allows you to tailor the lighting and privacy to your unique taste.

Option

Optional room darkening vanes (colour Ivory) can be added for increased privacy and light control.

Operation

Ballet™ Performance Drapery Sheers stack to the left, right or both sides. You may also chose to have the fabric stack in the centre of the window or door to keep the outer views perfectly clear.

Colours and Styles

- Linen Ivory
- Linen Hazelnut
- Vintage Décor Ivory
- Vintage Décor Hazelnut

Cleaning and Care

Ballet™ Performance Drapery Sheers are 100% polyester, exceptionally durable and easy to maintain. Simply remove the fabric from the head rail carriers and place it in the washing machine in a mesh bag. Use the gentle cycle and mild soap to bring Ballet sheers back to their original brilliance. Isolated stains can also be removed by using a mild soap and water solution. Be careful not to pull or tug on the fabric.

Vanes stacked: Sheers are pulled to the side to provide a clear, unobstructed view.

Vanes rotated: Enjoy variable degrees of privacy and light control when the sheers are rotated.

Vanes open: Light is softly diffused when the sheers are open and drawn.
