

hand and cord draw track

Windoware's curtain tracks offer you a platter of features and benefits. Beautifully designed, yet strong and rigid, Windoware Curtain Tracks maintain a high quality aluminium construction that will deliver you a lifetime of worry-free operation, whilst supporting your curtains.

Features include the superior gliding performance and a great range of colours to suit the changing market. Our plastic gliders and end caps are protected with a UV coating which contributes to their longer lasting life.

Available in both Hand Draw and Cord Draw this quality track comes with a 5 year Guarantee and is suitable for most weights of curtains.

These high quality tracks cover both domestic and commercial applications, giving years of trouble free use even in high traffic areas.

Windoware Made to Measure tracks are made to exact sizes and colours specifications, while Windoware DIY tracks are sold in packaging in various sizes and can be cut to measure at home and installed straight away.

Most Windoware tracks come in a wide range of powdercoated colours and many can be supplied in both Hand Draw and Cord Draw, with or without bends.

Tracks can be bent to fit all types of bay windows.

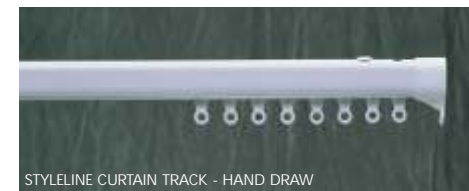

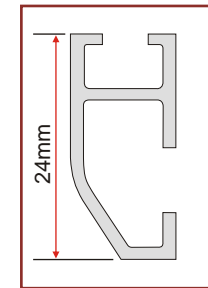

combination tracks

specifications

Quality aluminium tracks preferred by decorators.

track profile

styleline and other track combinations

Phoenix V: Combine Styleline with the Phoenix V Curtain Track. This is not a bendable track, but you do however, have the flexibility of the Phoenix V Track as a single or double installation by either combining our Sheer Track or Styleline Tracks, you can choose either hand or cord drawn.

Ironage: The combination of Styleline and Ironage is also available as a custom made tracking system. Styleline can be used as a second track with the 25mm and 38mm Ironage Track Rod, you can choose either hand or cord drawn. (Please note: Please refer to the Ironage brochure for colour and combination details).

Sheer: Styleline and Sheer Track make for the perfect combination in curtain installation. The Sheer Track is available Cord Draw (one way and centre close) and Hand Draw with Sheer Track systems. Sheer Track is a small aluminium profile track, perfectly suited for light weight voiles, sheers & nets. (Please refer to the Windoware Catalogue for colours).
